5 Tax withholding election

A Federal withholding

Federal income tax will not be withheld from this distribution unless you elect federal tax withholding below.

If elected, tax will be withheld on the gross amount of the payment even though you may be receiving amounts that are excluded from gross income. This withholding procedure may result in excess withholding on the payment. If your distribution includes amounts that are includable in gross income and you do not have federal income tax withheld from your distribution, or if you do not have enough federal income tax withheld from your distribution, you may be responsible for estimated tax payments. You may incur penalties under the estimated tax rules if your withholding and estimated tax payments are not sufficient.

Withhold ___ ___ ___ % federal income tax (Optional. Must be 10% or greater)

B State withholding

Your state of residence will determine your state income tax withholding requirements, if any. Those states with mandatory withholding may require state income tax to be withheld from payments if federal income taxes are withheld or may mandate a fixed amount regardless of your federal tax election. Voluntary states let individuals determine whether they want state taxes withheld. Some states have no income tax on retirement payments. Please consult with a tax advisor or your state's tax authority for additional information on your state requirements.

Please select one of the following:

I elect **NOT TO** have state income tax withheld from my retirement account distributions (only for residents of states that do not require mandatory state tax withholding).

I elect **TO** have the following percentage withheld from my retirement account distribution for state income taxes (for residents of states that allow voluntary state tax withholding).
